(See reverse side for additional information)

## Terms and Conditions

Water heaters must have a qualifying Uniform Energy Factor (UEF) rating.

Owners or customers living in an individually metered dwelling unit are eligible to participate in this program. You may apply for rebates with or without the assistance of your heating, ventilating and air conditioning (“HVAC”) contractor.

## Rebate Limit

Individual dwelling units, as determined by account number, whether owner-occupied or rental property are eligible for a maximum of two heating system rebates (furnace/boiler), two water heater rebates, or two integrated system rebates, and two programmable setback thermostat rebates under this program.

Owners of multiple individually metered dwelling units may receive rebates for all qualifying natural gas energy efficiency equipment, subject to program funding availability. A program year runs from October 1<sup>st</sup> through September 30<sup>th</sup>.
